Caution: For any configuration, you must connect a monitor (HDMI or VGA) directly into your recorder.

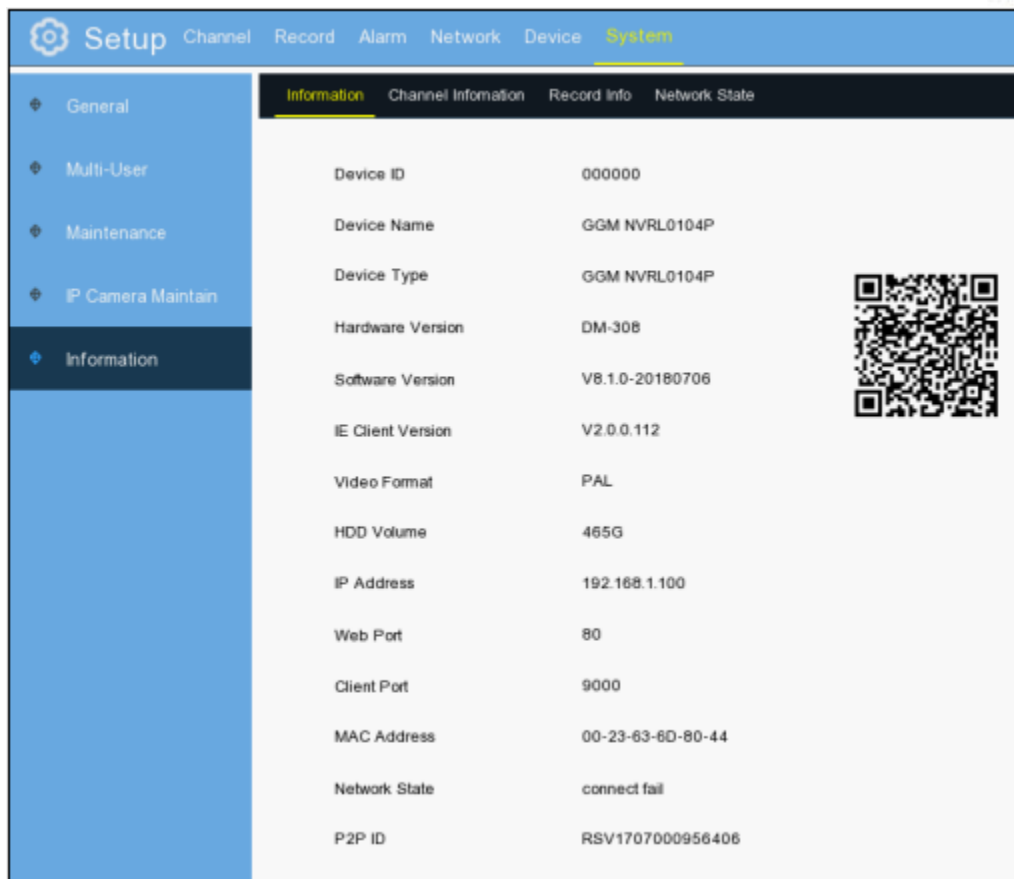

You need to have the MAC Address and the date displayed from you recorder.

Where to find your MAC Address ?

At the bottom of the screen, in the Menu Bar, GO to [i] for Information.

Then you will see your MAC Address, as below :

The screenshot shows the 'Setup' menu with 'System' selected. Under 'System', 'Information' is chosen, displaying a list of device details and a QR code.
